

HackerForce

Team Queue

Meet the Team

- Nick Williams
- Ishaan Khatri
- Cory Lanza
- Kevin Fredericks
- Itamar Levy-Or

What is HackerForce?

- Hackathon planning tool
- Ability to keep track of sponsors
- Send mass emails to companies / contacts by categories

Who Would Use This?

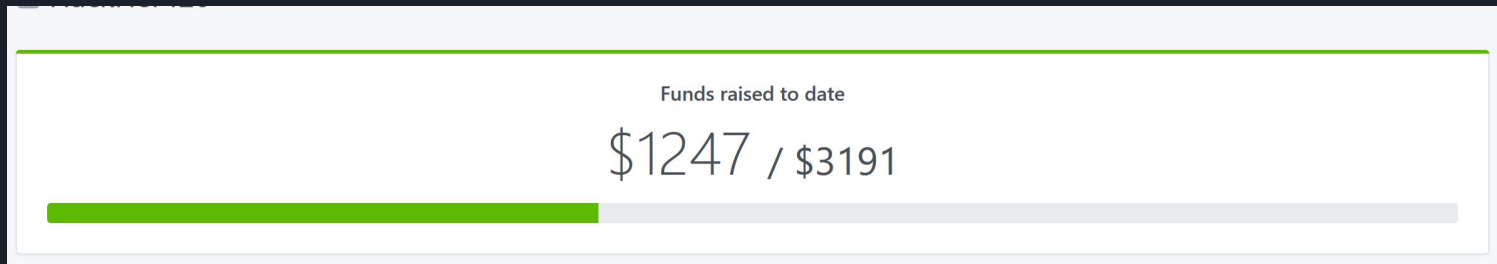

- Simple, Hackathon planners

Highlights

- Fully implemented email verification system
- Live chart showing donation progress towards goal

What was easy vs hard

Easy:

- UI (Tabler made this a breeze)
- Data models

Hard:

- Finding our lost team member Itamar (we were unsuccessful)
- Using Jinja templating with Django

Future

- Given more time, the mass email feature would actually be implemented
- Allow filtering of companies or contacts by categories to send emails
- Allow users to store custom groups of companies / contacts for future use
